

## Petition to have artificial turf at Henderson County high schools

Petition summary and background	For far too long, the grass athletic fields at Henderson County high schools have become greatly overused and expensive to maintain, yet also limit our recreational opportunities. We are currently behind many nearby school systems who have enjoyed the advantages of artificial turf. Artificial turf will help greatly with football and soccer, plus introduce new sports opportunities for men and women, including possibly lacrosse, field hockey, and rugby.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to implement a plan to have artificial turf installed at our high schools in reasonable speed.
